Colleagues -

I just got off the phone with State Supt. Tom Torlakson, who relayed the great news that LACCD has been awarded a \$15M CCPT grant!

According to Mr. Torlakson, the proposal scored high on industry involvement, the number of student internships, and the components which promoted collaborative partnerships with schools, colleges, and the business community. The formal letters and announcements of awards are going out later today and this week. We are now finalizing a press release to get the word out and are looking at conducting our own press conference in the near future with one of our major employers.

Thank you all for your support and guidance, and special recognition goes to Vice Chancellor Chito Cajayon and his staff for their leadership and coordination.

Great day for the district!

FCR
